How Does EXION Work?

Utilizing a patented blend of Monopolar Radiofrequency and Targeted Ultrasound, to stimulate the deep layers of the skin.

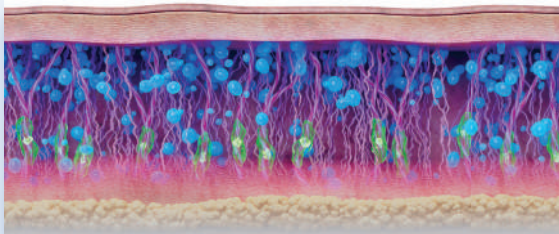

This stimulation increases Hyaluronic Acid, Collagen, and Elastin production, which significantly enhances the skin's overall appearance and health.

FAQ

Who can benefit from the treatment?

Anyone who wants to improve the appearance of their skin, regardless of age or skin type, can benefit from a hyaluronic acid-enhancing treatment. Ask your provider if the treatment is suitable for you.

What areas can be treated?

A total of 12 areas can be treated with EXION Face Applicator. Few of the most popular ones are periorbital and perioral areas, neck, décolletage and hands.

Is there any downtime?

Typically, you may resume back to your daily routine right away.

How does the therapy feel like?

The procedure is known to be highly comfortable and even relaxing, according to some. You may feel warmth in the area being treated.

How fast will I see results?

Based on available studies, best results can be usually seen 3 months after the treatments.
