

Densaderm LIDO

Injectable Collagen Gel with Lidocaine

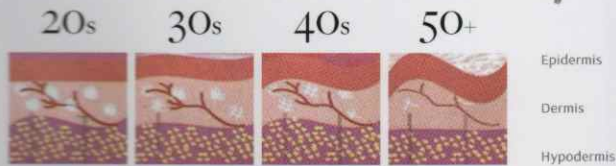

— COLLAGEN AESTHETICS —

Collagen, The Essence of Youthful Skin

- ✓ A triple helix protein with abundant amino acids.
- ✓ Accounts for **80%** of the dermis.
- ✓ Preserves **elasticity, hydration, texture, and volume.**

The Aging Process of Skin Is The Process of *Losing Collagen.*

Dr. Fredric Brandt, The King of Collagen.

From the mid-20s, collagen loss accelerates as production decreases by 1% annually, resulting in fine lines, wrinkles, and dull, sagging skin.

Model. Not Actual Patient

Inject Pure Collagen for Collagen Loss

Densaderm LIDO

An injectable collagen gel designed for overall facial rejuvenation.

- Extracted from SPF porcine skin.
- Purified through Sunmax's patented purification platform.
- **Low immunogenicity & side effects.**
- Highly similar to human collagen.
- Biocompatible & Biodegradable.
- High Viscoelasticity & Cohesivity.
- **Provide dynamic & natural beauty.**

Pure And Natural

The Perfect Solution for Collagen Loss

Instant Periorbital Improvement

Deusaderm's formulation ensures safe and effective elimination of dark circles and tear troughs in the delicate eye area.

Improvement of Wrinkles and Contours

Deusaderm creates a durable, non-migratory fibrous structure, aiding in rejuvenating facial contours damaged by aging.

Improvement of Skin Tone and Quality

Deusaderm breaks down into peptides, which inhibit Tyrosinase activity, leading to a brighter, smoother skin tone.

Collagen Regeneration

Deusaderm stimulates dermal cell regeneration through increased vascularization, fibroblast migration, and collagen synthesis.

Natural & Safe Transformation

Deusaderm offers a natural and subtle transformation with minimal side effects, recovery time, or adverse events.

Treatments Performed

Of patients showed significant improvement after 1st injection.

Of patients resulted in no adverse events after injection.

Of patients showed improvement in the tear trough.

Of patients showed improvement in facial fine lines.

Of patients showed improvement in the pigmented dark eye.

High Patient Satisfaction

Recommended Treatment Design

Actual treatment frequency and amount depend on the physician's evaluation and individual condition.

Patient Testimonial

The treatment was not painful. My dark eye circles were instantly concealed. Fine lines below my eyes were improved as well within a few months. Periorbital rejuvenation is a must-have treatment for aging skin like mine.

Ms. Yang Age 32, Taiwan

Real Clinical Result

*Treatment results may vary depending on the patient's condition.

FAQs

When can I expect to see the effects of Deusaderm LIDO treatment?

After the injection, you'll see immediate improvement around the eyes. About a week later, collagen blends with your skin, enhancing wrinkles and contours. As collagen breaks down into amino acids, you'll notice better skin quality, brightness, and smoothness, along with collagen regeneration.

How long does the effect of Deusaderm LIDO treatment last?

Generally, the effect lasts for around 8-12 months. However, the degrading period may vary depending on individual physical and daily routine differences. The injection area and volume will also affect how long the effect lasts.

Are there any adverse side effects from Deusaderm LIDO treatment?

Deusaderm is purified from SPF porcine using patented techniques, making it highly biocompatible and similar to human collagen. As a result, it typically causes no adverse side effects.

Is Deusaderm LIDO treatment painful?

Practitioners apply a topical gel before the injection to minimize discomfort. This reduces pain, with patients typically feeling only slight stinging in sensitive areas. However, it's important to communicate any discomfort to your doctor during treatment.

How long will the treatment take? What is the recovery time?

The injection process is typically completed within 30 minutes, delivering instant and visible effects. Due to the repairing and safe benefits of collagen, patients usually experience minimal discomfort and can resume normal activities after a short 10-15 minutes icing downtime.

Global Leader of Collagen Aesthetics

Established in 2001 and headquartered in Taiwan, Sunmax was founded by scientists from a leading U.S. biomedical company. Breaking through collagen medical material barriers, Sunmax became the first Asian company to mass-produce QMS-certified medical-grade collagen. With over 22 years of R&D, an exclusive purification patent platform, and a global presence in Taiwan, China, Southeast Asia, and Europe, Sunmax is the leading brand in Asia-Pacific's medical aesthetic injectables. Sunmax's benchmark products drive global collagen aesthetics expansion, setting new standards in the industry.
